Handset
H2T

H2T is designed for patient lift, stand up lifter and other homecare applications. The complete veneer design possesses the water resistance and dustproof abilities, and the arc shape makes it easy to hold. There are several LED indicators to show the control box battery status, overload alarm and main actuator lifetime, reminding users to charge the battery and to maintain the actuator.

Features

- Main applications: Medical Care
- Available number of buttons: 5 max.
